

Gemba Academy Learning Paths

The purpose of the learning path is to improve the organization through the development of people. All continuous improvement activity should be engaged with the spirit of solving problems and making improvements, rather than meeting a training requirement.

This is an example of a learning path for associate through leader levels of an organization. This path is intended to be progressive. All members of an organization, regardless of position, would complete the Lean Associate path. Team leaders, supervisors, knowledge workers, and continuous improvement specialists would move on to the Lean Champion path. Managers and senior leaders would continue on to complete the Lean Leader path.

This path is a starting point for Lean learning. All members of the organization are encouraged to continue down the path beyond their current position.

This is what a Lean learning progression might look like.

Associate _____

Team Leader _____

Supervisor _____

Knowledge Worker _____

Manager _____

Senior Leader _____

Lean Associate

Topic	Goal	Resources	Go To Gemba
Lean Foundations	Gain an understanding of the general concept of lean	Introductory Topics	
Begin Daily Lean Practices	Establish daily continuous improvement practices by applying 5S in your workplace.	5S Workplace Productivity Gemba Academy Live at FastCap 2012 5S Action Guide SSF Cross-Training Board	<ul style="list-style-type: none"> • Understand what problem you are trying to solve with 5S • Keep improvements small at first—go for quick wins • 5S three small areas individually or as a team <ul style="list-style-type: none"> • Train the team to new 5S standards in these areas • Follow up to sustain improvements • Use the Action Guide to report out to team and management what problem was addressed and how your countermeasures are helping • Implement a skills matrix to support the development of people • Celebrate improvements
Find and Eliminate Waste	Understand all forms of waste, recognize them in your processes, and implement a system for eliminating them	Dealing with the 7 Deadly Wastes 7 Deadly Wastes Action Guide Gemba Academy Live at FastCap 2014 Stand in circle exercise	<ul style="list-style-type: none"> • Complete the Stand In the Circle exercise to identify wastes • Keep it simple • Make improvements based on observations • Use your wits over your wallet—avoid spending money • Develop and implement a simple system for the team to manage improvements (this could be a simple list on a white board or kaizen newspaper) • Fix what bugs you • Celebrate improvements • Make this a daily practice
Standardize Your Work	Create or improve standards for your work	Standard Work	<ul style="list-style-type: none"> • There can be no sustained improvement until there is a standard • Create or improve three documented standards for work done in your area of responsibility <ul style="list-style-type: none"> • Don't forget about standardizing your team's continuous improvement practices • Train your team to the new standard • Celebrate improvements
The Kaizen Event	Make larger scale improvements by work as part of a kaizen event team using the kaizen event model	Kaizen Way Kaizen Way Action Guide	<ul style="list-style-type: none"> • Keep it simple • Understand the problem you are trying to solve • Be sure the kaizen event model is the appropriate approach • Participate in three kaizen events as a team member • Celebrate improvements
